Are you interested in the SecureAll VC and do you want to join us in order to improve the quality of VET, the training of professionals and facilitate Lifelong Learning in the field of prevention, civil protection and safety of people and patrimony? Then we invite you to visit the virtual community: <http://community.SecureAll.eu>

For any information on the SecureALL project in general, please visit the project website www.SecureAll.eu

The SecureALL project was promoted and is coordinated by ISQ on a multinational consortium and co-funded by the European commission, within the framework of the Leonardo da Vinci programme, pilot projects 2005 (PT/05/B/P/PP-159.150).

This project has been funded with the support from the European Commission. This publication (communication) reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

An innovative ICT-based training system in the fields of prevention, civil protection and safety of people and patrimony

PT/05/B/P/PP-159.150 - foehHOUSE - Belgium

In accordance with the new European long-term policies, the newly adopted safety and security standards have taken into account and tried to guarantee the overall public well-being as well as the safeguard of their property...

In this context, new qualifications and refresher courses for these areas have an increasing importance. Thus the Emergency service, civil protection agencies, risk analysis and quantification of damage specialists or risk management and operations staff, stand out as an important target group's with emerging needs of development and training or cycles of evaluation and up-dating of skills and competences.

The SecureALL project offers contributions in this field...

The fast and continuous development of ICT has contributed to provide trainees with a training environment at anytime and almost anywhere. The objective aims of the project are the use of ICT for the basic training, for the up-dating and for the regular refresher training of all the agents involved in any form of civil protection, and of safety and security of persons and protection of the patrimony. The purpose is to increase the quality and effectiveness of the response to the threats that currently exist and to those that are foreseeable in the near future.

Are you...

- part of the target group as described in the previous section?
- interested in updating your skills and competences in this field, but without a possibility to attend new training courses?
- interested in exchanging your practical experiences with other experts in this field?
- interested in evaluating and updating experiences and skills from the perspective of Lifelong learning?
- interested in civil protection, prevention and preparedness from the point of view of your profession in general?

If your answer to one or more of these questions is "yes", we invite you to visit the virtual community of "SecureALL"...

The Virtual Community of SecureALL offers a contribution by providing professionals in this field the necessary conditions for a continuous access to lifelong learning.

This virtual community has been set up to:

- communicate with experts in the field of prevention, civil protection and safety of people and patrimony,
- offer inspirational and motivation tools, such as international good practices and DVD material,
- offer a toolkit with practical and concrete tools such as competence profiles for professionals and e-learning modules in this field. These tools could be directly integrated in current training situations or be used in the field of Lifelong learning,
- offer a virtual learning space enabling you to follow a flexible and modular training course, supported by e-learning.
